

Smile Checklist

- Look closely at the color of your teeth. Are they dark or stained?
- Are your teeth worn?
- Do they have rough, jagged edges?
- Do they look too short?
- Are they shaped improperly or asymmetrically?
- Do you have old fillings ugly-ing up your mouth?
- Are there gaps between your teeth?
- Do you have missing teeth?
- Do your gums show too much?
- Do your teeth look too big or too small?
- Do you have dark fillings in the side teeth that look grey, or worse, black when you smile? This can be a little tricky. You may have to turn to the side and actually use a second mirror so you can see your side smile. This is the smile that most smile owners miss, but others see..
- Do you have replacement teeth that look natural or are they too fake - too white or too dark? Do you have various shades of teeth so your mouth looks like a patchwork quilt?
- Do your teeth feel uncomfortable or painful?
- Do you struggle to chew certain foods without pain or embarrassment?
